Two of my favorite hobbies are writing and reading about astronomy. This includes learning about the universe, galaxies, planets and stars. I combined my two hobbies to create this poem about Pluto.

# The Lost Pluto

By: Tonkhoa Daosuk

Flowing, through time,  
As I slowly walk through the universe  
Everyone looks at me like I'm an outcast.  
I am just a cramped space in this colossal place  
Should I be shut out in a case?  
I spin, I whirl  
In this beautiful universe.

I see the stars and universe sparked bright as gold  
I'm just like a block of coal  
I am not to be seen, as I bawl  
But at least someone finds me interesting,  
The children on the Earth,  
But I'm so far away  
I'm so scared to be gone  
How will I be seen?

Finally, I jump and shine!  
Bright with satisfaction,  
I have finally been seen!  
I have been studying and finally shine, bright, and clean!  
I forget about the sad day and how,  
That I am delighted now!  
I felt a great warmth to my face  
I was finally included to the outer space!  
But then they start to decide,  
That I should not be in this side,  
Sad days came back, and I started to shed tears, I felt a deep sadness inside.  
I fell and started to have snow,  
And my heart started to  
**crumble**  
When I was covered with snow,  
I was excluded from this show.

And now I was quite lonely,  
But I met some other of my kind,  
I met Eris, MakeMake, Haumea, and Ceres.  
I was told that they felt the way as I did,  
I am still filled with snow and sadness.  
I thought maybe this is how it all ends  
I will be devastated,  
**Forever...**

## A Poem: Stopping to See the Sun Set on a Summer Day

By: Jay Ann Adelantado Refuerzo

The sun sets on a summer day,  
It comes out on Wednesday,  
And sometimes on Tuesday,  
It is peaceful like an ocean.

The sunset is beautiful when sinking into the sea  
The view of the sunset is so lovely you feel free  
I want to watch the sunset because it makes me feel better  
The sunset is at the same time of day in every weather.

Sunsets represent a moment of reflection for the day's events,  
Once you are more comfortable with structured reflection,  
Sunsets are so marvelous and even the sun itself watches it every day,  
Sunsets are proof that no matter what happens every day can end beautifully.

## Sea Shell

By: Venushka Saravanan

My hobby is to collect sea shells,  
I wander in the ocean,  
To see you on the nation,  
To make you as my fashion, and  
Shine me for the occasion.  
I won't sell you in the auction,  
Because you are my passion.

# My Favorite Hobbies

By: Isra Muhamed

I have two hobbies. I enjoy reading and I like to paint. I do some things before I do my hobbies. For example before I start reading, I like to bring some cakes and juice then I start reading, and for painting before I start I should choose colors that I want to use. I have reasons to like painting and reading. I don't like to see white picture. Colors give beauty for the picture and for our life. I think white picture looks like empty life. There is Arabic song say "life's magic appears when we see colors. White and black created so we can notice other colors." And for reading I think when you watch film, you watch the scene that the director wants you to see. That makes you can't imagine other scenes. But when you read you make your brain imagine what you like not what other like. The common idea for my hobbies is to share. That means usually I like read novels with my fiancé. Actually he doesn't like to read or paint, but he enjoys listening to me when I tell him stories. When I finish painting I show him what I did, and when I read novel chapter I tell him what I read. Then we talk about what we think. Sharing my hobbies makes me happy. I will never stop reading and painting in future.
